Application and Biology

Monograph No. 28

Proceedings of a Symposium held at
The University of Reading, Berkshire, England
7th–9th January, 1985

Edited by
E. S. E. SOUTHCOMBE

PREFACE	ix
SYMPOSIUM PROGRAMME COMMITTEE	xi
CHAIRMEN OF SESSIONS	xiii
1. OPENING SESSION	
2. PESTICIDES APPLICATIONS SYSTEMS	3
Characteristics of boom and nozzle spraying — A robust, safe and efficient system for the future? I. RUTHERFORD	5
The Ulva System — can we gauge its success? D. R. JOHNSTONE	11
Biological consequences of sprays emitted by horizontal rotary atomisers W. TAYLOR	17
Pattern of insecticide deposition and control of aphids on potatoes after spraying with hydraulic, rotary cage atomiser and controlled droplet application sprayers R. G. McKINLAY	21
Economies in weed control costs following changes from conventional knapsack spraying in plantation crops P. D. TURNER	33
The application of pesticides via the soil D. A. HARRIS	39
The influence of application factors on repeated low doses of phenmedipham and metamitron for the control of annual weeds in sugar beet M. J. MAY and P. AYRES	47
The height-directed application of dicamba for controlling *Rumex obtusifolius* and *Cirsium arvense* in grassland A. K. OSWALD	55
3. INNOVATIONS IN APPLICATION METHODS	63
The development of localised insecticide placement methods in soil D. L. SUETT and A. R. THOMPSON	65
Biological results obtained with the handheld "Electrodyn" spraying system R. PASCOE	75
Review of the relationship between chemical deposits achieved with electrostatically charged rotary atomisers and their biological effects G. R. CAYLEY, P. E. ETHERIDGE, R. E. GOODCHILD, D. C. GRIFFITHS, P. J. HULME, R. J. LEWTHWAITE, B. J. PYE and G. C. SCOTT	87
Using the seed as a chemical carrier P. J. BAUGHAN, A. J. BIDDLE, J. A. BLACKETT and A. M. TOMS	97
Field trials with the Girojet M. MOREL	107

System ES, an electrostatic spraying system — 1984 U.K. trials
C. C. PAY 113

Presented as a poster:-

Preliminary experiments on the use of induction charged nozzles for applying a herbicide to control broad-leaved weeds in cereals
M. C. PHILLIPS and T. HARRINGTON 121

4. ADJUVANT AND FORMULATION EFFECTIVENESS 125

Effect of addivites on foliar wetting and uptake of glyphosate into gorse *(Ulex europaeus)*
J. A. ZABKIEWICZ, R. E. GASKIN and J. M. BALNEAVES 127

Studies with alternative glyphosate formulations
D. J. TURNER and P. M. TABBUSH 135

The effect of a surfactant on alloxydim-sodium and sethoxydim potency
J. C. STREIBIG and K. E. THONKE 147

The effect of a surfactant oil/mixture and application method on the activity of dichlorprop for the control of broad-leaved weeds in spring barley
P. AYRES and D. J. TURNER 155

5. THE PHYSICS OF APPLICATION 161

Pesticide application — How can we improve our understanding and control of the process?
B. W. YOUNG 163

Deposition and penetration of sprays
H. GOELICH 173

Prediction and analysis of spray penetration into plant canopies
D. H. BACHE 183

Relationships of hydraulic nozzle and spinning disc spray characteristics to retention and distribution in cereals
N. M. WESTERN, E. C. HISLOP, P. J. HERRINGTON and S. A. WOODLEY 191

The effect of volume of application from hydraulic nozzles on the partitioning of a pesticide spray in a cereal canopy
J. E. BRYANT and R. J. COURSHEE 201

An evaluation of aerially applied ULV and LV sprays using a double spray system and two tracers
C. S. PARKIN, I. OUTRAM, A. J. LAST and A. P. W. THOMAS 211

Presented as posters:-

Surfactants, droplet formation and spray retention
N. H. ANDERSON and D. J. HALL 221

The safety and efficiency of chemical transfer systems
G. R. BARNETT 223

6 & 7 THE BIOLOGY OF APPLICATION 225

Effect of changing droplet trajectory on collection efficiency
J. H. COMBELLACK and R. G. RICHARDSON 227

The effect of nozzle type and 2,4-D concentration on spray collection by wheat and weeds
C. R. DEMPSEY, J. H. COMBELLACK and R. G. RICHARDSON 235

The influence of cereal canopy and application method on spray deposition and biological activity of a herbicide for broad-leaved weed control
P. AYRES, W. A. TAYLOR and G. E. COTTERILL 241

Studies on the relationships between the properties of carrier solvents and the biological efficacy of ULV applied drops of the insecticide cypermethrin
G. J. CREASE, M. G. FORD and D. W. SALT 251

Localised activity of ULV pesticide droplets against sedentary pests
I. J. WYATT, M. R. ABDALLA, A. PALMER and D. C. MUNTHALI 259

A biological appraisal of fungicide application in the tropics
T. H. MABBETT 265

The growth effects of cucumber on spray retention and initial deposition
T. H. MABBETT and R. H. PHELPS 279

Spray factors and fungicidal control of apple powdery mildew
P. J. HERRINGTON, E. C. HISLOP, N. M. WESTERN, K. G. JONES, B. K. COOKE, S. E. WOODLEY and A. C. CHAPPLE 289

A comparison of alternative spray techniques in cereals
B. K. COOKE, P. J. HERRINGTON, K. G. JONES, N. M. WESTERN, S. E. WOODLEY, A. C. CHAPPLE and E. C. HISLOP 299

ORGANISATIONS PRESENTING DISPLAYS 311
