Weeds, Pests and Diseases of Grassland and Herbage Legumes

Monograph No. 29, British Crop Protection Council
Occasional Symposium No. 18, British Grassland Society

Proceedings of a Symposium held at the University of Nottingham
10–12 April 1985

Edited by
J. S. BROCKMAN

OBJECTIVES OF SYMPOSIUM ix
PROGRAMME COMMITTEE x
CHAIRMEN AND SESSION ORGANISERS x
THE BRITISH CROP PROTECTION COUNCIL xi
AIMS AND OBJECTIVES OF THE BRITISH GRASSLAND SOCIETY xii
ABBREVIATIONS xiii

INTRODUCTION
Weeds, Pests and Diseases in Grassland and Herbage Legumes — an Overview
C. R. W. SPEDDING 1

PART 1. WEED PROBLEMS IN GRASSLAND ESTABLISHMENT
Occurrence, impact and control of weeds in newly sown leys
R. J. HAGGAR, C. J. STANDELL and J. E. BIRNIE 11

The control of weed populations during grass establishment by the manipulation of
seed rates
T. W. PARR 20

Developments in selected weed control in newly sown leys using ethofumesate mixtures
R. WHITEHEAD 29

Experiences in controlling chickweed with various selective herbicides
F. B. COOPER and M. V. JACKSON 36

Discussion on Session 1 44

PART 2. PEST AND DISEASE PROBLEMS IN GRASSLAND
ESTABLISHMENT
Incidence, impact and control of insect pests in newly sown grassland in the UK
R. O. CLEMENTS and B. R. BENTLEY 49

Pest and disease problems in newly sown grass in The Netherlands
J. v. BEZOOIJEN 57

Effects of nematodes on newly sown ryegrass
A. SPAULL 65

Permanent pasture rejuvenation and the invertebrate population
S. A. ELLIS 73

Effect of soil-borne pathogens on ryegrass and white clover seedlings and their control
G. C. LEWIS 82

Discussion on Session 2 90

PART 3. WEEDS OF ESTABLISHED GRASSLAND —
IMPORTANCE AND CONTROL
Incidence of weeds in permanent grassland
A. HOPKINS and S. PEEL 93
The nutritional value of common weeds
W. P. BARBER
Problems and benefits of grass weeds
C. DIBB
Impact and control of docks in grassland
A. D. COURTNEY
Impact and control of thistles in grassland
A. K. OSWALD
The chemical control of bracken (*Pteridium aquilinum*) a review of some agricultural development and advisory service field experiments
C. E. FLINT
The impact and control of ragwort (*Senecio Jacobaea* and *S. aquaticus*) in grassland
J. C. FORBES
Developments in biological control
M. P. GREAVES
Discussion on Session 3

PART 4. PEST AND DISEASE PROBLEMS OF ESTABLISHED GRASSLAND
Pest damage to established grassland and the feasibility of control
R. O. CLEMENTS and B. R. BENTLEY
Seasonal occurrence and single-treatment control of pest damage in established ryegrass
D. J. MOWAT and S. JESS
Nematode problems of grassland
R. COOK and P. A. YORK
Assessment of disease in grassland
M. R. THOMAS
The influence of viruses on grassland
S. J. I. HOLMES
Disease and the influence of herbage variety — a NIAB viewpoint
R. H. PRIESTLEY and M. A. DOHERTY
Amelioration of disease in grassland through resistance breeding
P. W. WILKINS
Discussion on Session 4

PART 5. SYNDICATE PAPERS
Weeds, pests and diseases of grassland and herbage legumes — a farmer’s view
R. NEWCOMB
Weeds, pests and diseases of grassland and herbage legumes — an economist’s view
C. J. DOYLE
PART 6. SYNDICATE DISCUSSIONS

Report of Syndicate 1
R. J. HAGGAR

Report of Syndicate 2
C. K. MACKIE

Report of Syndicate 3
R. NEWCOMB

Report of Syndicate 4
J. JOHNSON

Report of Syndicate 5
A. J. H. CARR

Report of Syndicate 6
R. O. CLEMENTS

Summary of Syndicate Discussions

CONCLUSIONS

Contribution to concluding discussion
J. H. D. PRESCOTT

CONCLUDING REMARKS

R. J. Wilkins

POSTER SUMMARIES

Control of common chickweed (Stellaria media (L) Vill.,) in Autumn-sown ryegrass/white clover leys
D. H. K. DAVIES, G. SWIFT, M. C. RICHARDS and A. T. CLELAND

Pot experiments to assess herbicides for selective control of established thistle (Cirsium arvense) in perennial ryegrass
T. M. WEST and W. G. RICHARDSON

Optimising the control of perennial broad-leaved and woody weeds in established grassland with Broadshot using conventional and novel applicators
D. P. BIRD

Biological control of bracken
M. J. W. COCK

Control of cow parsley (Anthriscus sylvestris) in Yorkshire dales meadows
H. V. LEA and J. JOHNSON

Establishment and seed production of common ragwort (Senecio jacobaea L.) and the spread of hoary ragwort (Senecio erucifolius L.)
T. A. WATT

Objectives of the Symposium

1. To provide a forum for the discussion of weed, pest and disease problems in grassland and herbage legumes.

2. To identify major weed, pest and disease problems, both current and likely in the near future.

3. To suggest practical guidelines for economic control.

4. To report recent progress on prevention and control.

5. To detail areas requiring further attention and where new developments may achieve significance.
