The comparison of yields of some spring barley varieties in the presence of mildew and when treated with a fungicide
R. LITTLE AND J. K. DOODSON

Session 3A
APPLE DISEASES (WITH PARTICULAR REFERENCE TO MILDEW AND CANKER CONTROL)

Apple diseases
R. J. W. BYRDE .............................................................. (Vol.3)

Effect of fungicides on inoculum potential of apple canker disease (Nectria galligena)
MARGERY BENNETT ......................................................... 98

The control of powdery mildew, canker and other diseases of apple with benomyl
W. S. CATLING ................................................................. 103

Evaluation of apple scab (Venturia inaequalis) and canker (Nectria galligena) control programmes in Ireland 1961-1971
T. KAVANAGH and N. D. O'KENNEDY .................................... 110

The control of diseases of apples and pears in the United Kingdom with thiophanate methyl
R. J. COLE, A. J. GILCHRIST and D. SOPER ................................ 118

Thiabendazole for the control of powdery mildew and scab in apples
N. VON KEYSERLINGK and S. E. WIHRHEIM ................................ (Vol.3)

The control of apple mildew with triarimol (SL 273)
J. H. BRYANT and D. J. HITCHMAN ..................................... 126

The control of apple mildew with HOE 2873
S. J. B. HAY ................................................................. 134

Session 3B
NEMATICIDES

Nematicides for field crops
A. G. WHITEHEAD .............................................................. (Vol.3)

Chemical control of stem nematode (Ditylenchus dipsaci) of bulb onions.
A. L. WINFIELD, G. MURDOCH and MARGARET E. JOHN ................ 141

Control of stem nematode (Ditylenchus dipsaci) in onions
J. J. DUGGAN ................................................................. 150

Preliminary results on the effect of the nematicide aldicarb on the phenolic content of the treated cotton plant infected with (Rotylenchulus reniformis)
B. OTSIFA, M. H. BALBA, M. EL-SHERIP and S. LABIB ................... (Vol.3)

Effect of granular applied "systemic" pesticides on the potato cyst nematode (Heterodera rostochiensis)
B. P. PAIN and N. G. M. HAGUE ........................................ 154
# Session 3C

## THE CONTROL OF POST-HARVEST DETERIORATION IN FRUIT AND VEGETABLES

Session 4B

SOIL SICKNESS PROBLEMS AND THE USE OF SOIL STERILANTS

Behaviour and perspective of chemical soil disinfection
PROF. C. VAN ASSCHE ................................................................. (Vol.3)

Residue aspects of soil fumigation with methyl bromide
G. A. MAW and R. J. KEMPTON .................................................... 231

Control of black root rot of cucumber (Phomopsis sclerotoides) with methyl bromide
J. G. WHITE and N. G. M. HAGUE .................................................. 237

Tomato brown root rot: the build-up of soil inoculum and its control by fumigation
MARION H. EBBEN .................................................................. 243

Root rot and wilt of field beans (Vicia faba)
G. A. SALT and D. HORNBY .......................................................... 251

Chemical control of Verticillium dahliae and Heterodera rostochiensis on potatoes
D. C. M. CORBETT and G. A. HIDE ............................................. 258

Specific replant diseases of tree fruits and their control by soil fumigation
D. W. WAY and R. S. PITCHER ....................................................... 263

Session 4C

INTEGRATION OF FUNGICIDES AND PLANT BREEDING FOR DISEASE CONTROL AND THE PROBLEM OF FUNGICIDE RESISTANCE

Selective action of fungicides and development of resistance in fungi to fungicides
PROF. DR. IR. J. DEKKER .............................................................. (Vol.3)

Fungicides and the fungus population problem
M. S. WOLFE ........................................................................... (Vol.3)

Resistance of cucumber powdery mildew to dimethirimol
K. J. BENT, A. M. COLE, J. A. W. TURNER and M. WOOLNER ........ 274

Benomyl-induced instability of aspergillus diploids
A. C. HASTIE ...................................................................... 283

Interactions between systemic fungicides and barley genotypes: their implications in the control of mildew
B. C. CLIFFORD, I. T. JONES and J. D. HAYES ......................... 287
Session 5

CHANGING PATTERNS OF PESTICIDE USE IN EUROPE
(USE PROBLEMS AND ENVIRONMENTAL CONTAMINATION)

Environmental aspects of using persistent pesticides
PROF. I. GRANHALL .......................................................... (Vol.3)

An industrial view-point
J. F. NEWMAN ................................................................. (Vol.3)

Fundamental principles and working methods within the European community regarding pesticides and pesticide residues
S. DORMAL-VAN DEN BRUDEL ........................................... (Vol.3)

Session 6

VIRUS AND MYCOPLASMA DISEASES OF PLANTS AND CHEMICAL CONTROL OF THEIR VECTORS

Some recent work on fungus-transmitted and nematode-transmitted viruses
B. D. HARRISON ............................................................... (Vol.3)

The structure of mycoplasma and the problem of control methods
PROF. R. W. HORNE .......................................................... 295

Epidemiology and control of weevil-transmitted viruses in field beans
A. J. COCKBAIN ............................................................... 302

The control of insect-transmitted viruses of cereals
R. T. PLUMB ................................................................. 307

The spread and control of nettlehead and other diseases of hop associated with arabis mosaic virus
J. M. THRESH and R. S. PITCHER ........................................ 314

Successful restriction of the spread of non-persistent viruses by new methods of virus vector control
H. J. ZSCHEGNER, W. KRAMER, O. SASS, R. FRITZSCHE and H. DUBNIK ...... 319
PROCEEDINGS OF THE
SIXTH
BRITISH INSECTICIDE AND FUNGICIDE
CONFERENCE

15th to 18th NOVEMBER, 1971

HOTEL METROPOLE, BRIGHTON
ENGLAND

The Conference was organised by the British Crop Protection Council. The Proceedings may be obtained from Mr. A. W. Billitt, Clacks Farm, Boreley, Ombersley, Droitwich, Worcester.
## Session 7A

**The Wider Use of Systemic Fungicides on Crops Other than Cereals and Apples**

<table>
<thead>
<tr>
<th>Problems and progress in the use of systemic fungicides</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>E. EVANS</td>
<td>(Vol.3)</td>
</tr>
</tbody>
</table>

Comparisons of systemic and protectant fungicides for disease control on four soft fruits

F. O'HORODAIN, T. KAVANAGH and T. F. O'CALLAGHAN

Control of diseases of soft fruit and other crops in the United Kingdom with thiophanate methyl

A. J. GILCHRIST and R. J. COLE

Thiabendazole - broad spectrum fungicide - field experience of its performance on a range of crops in the United Kingdom

M. R. L. W. AYERS and D. GUNARY

Some results obtained in the United Kingdom using dodemorph for the control of powdery mildews in roses and ornamentals

A. J. P. FROST and NAOMI PATTISSON

Control of diseases of five vegetable crops with systemic fungicides

E. W. RYAN, W. P. STAUNTON and T. KAVANAGH

Control of some diseases of freesias, gladiolus and tulips with benomyl and thiabendazole

D. R. HUMPHREYS-JONES

## Session 7B

**Organo-Chlorine Alternatives**

Organo-chlorine alternatives - a review of the present position in the United Kingdom

R. Gair

<table>
<thead>
<tr>
<th>Changes in organo-chlorine usage on sugar beet, and progress in the replacement of dieldrin seed treatment</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>R. A. DUNNING and G. H. WINDER</td>
<td>367</td>
</tr>
</tbody>
</table>

The replacement of organo-chlorine insecticides on cereal and grass crops and future needs

J. H. WHITE

Fest control in vegetables: some further limitations in insecticides for cabbage root fly and carrot fly control

G. A. WHEATLEY

Alternatives to DDT for the control of blossom beetle on spring-sown oil-seed rape

H. J. GOULD

Carbaryl, a broad spectrum substitute for DDT

C. SINCLAIR and J. H. BRYANT

Fenitrothion - its place in U.K. agriculture

C. N. PRICE and D. M. WEIGHTON
**Session 7C**

**TROPICAL CROP PROBLEMS - PART 1**

<table>

Session 1

IMPACT OF MODERN HUSBANDRY TECHNIQUES ON PEST AND DISEASE CONTROL

Opening address
SIR FREDERICK BAWDEN, President of the British Crop Protection Council

Developments in husbandry techniques in crop production (Agricultural crops)
R. WICKENS

Developments in husbandry techniques in crop production (Horticultural crops)
R. F. CLEMENTS

Session 2

FOLIAR DISEASES OF CEREALS

Cereal leaf disease control: practicable and economic consideration
E. LESTER

Session 3A

APPLE DISEASES (WITH PARTICULAR REFERENCE TO MILDEW AND CANKER CONTROL)

Apple diseases
R. J. W. BYRDE

Thiabendazole for the control of powdery mildew and scab in apples
N. VON KLYSERLINGK and S. E. WIEHRHEIM

Session 3B

NEMATICIDES

Nematicides for field crops
A. G. WHITEHEAD

Preliminary results on the effect of the nematicide aldicarb on the phenolic content of the treated cotton plant infected with (Rotylenchulus reniformis)
B. OTEIFA, M. H. BALBA, M. EL-SHERIF and S. LABIB

Session 3C

THE CONTROL OF POST-HARVEST DETERIORATION IN FRUIT AND VEGETABLES

Post-harvest losses in perishable tropical produce
D. G. COURSEY and R. N. BOOTH
Chemical treatment for the control of post-harvest diseases of citrus fruits
PROF. J. W. ECKERT and M. J. KOLBEZEN

Session 4A
CONTROL OF BACTERIAL DISEASES OF PLANTS
Prospects for the use of bactericides for the control of bacterial diseases
J. E. CROSSE

Session 4B
SOIL SICKNESS PROBLEMS AND THE USE OF SOIL STERILANTS
Behaviour and perspective of chemical soil disinfection
PROF. C. VAN ASSCHE

Session 4C
INTEGRATION OF FUNGICIDES AND PLANT BREEDING FOR DISEASE CONTROL AND THE PROBLEM OF FUNGICIDE RESISTANCE
Selective action of fungicides and development of resistance in fungi to fungicides
PROF. DR. IR. J. DEKKER
Fungicides and the fungus population problem
M. S. WOLFE

WEDNESDAY 17th NOVEMBER 1971
Session 5
CHANGING PATTERNS OF PESTICIDE USE IN EUROPE (USE PROBLEMS AND ENVIRONMENTAL CONTAMINATION)
Environmental aspects of using persistent pesticides
PROF. I. GRANHALL
The changing pattern of pesticide uses in Europe - an industrial view
J. F. NEWMAN
Principles and methods of the European communities with regard to pesticides and pesticide residues
S. DORMAL-VAN DEN BRUEL

Session 6
VIRUS AND MYCOPLASMA DISEASES OF PLANTS AND CHEMICAL CONTROL OF THEIR VECTORS
Some recent work on fungus-transmitted and nematode-transmitted viruses
B. D. HARRISON
Session 7A
THE WIDER USE OF SYSTEMIC FUNGICIDES ON CROPS OTHER THAN CEREALS AND APPLES

Problems and progress in the use of systemic fungicides
E. EVANS ............................................................ 758

Session 7B
ORGANO-CHLORINE ALTERNATIVES

Organo-chlorine alternatives - a review of the present position in the United Kingdom
R. GAIR ............................................................ 765

Session 7C
TROPICAL CROP PROBLEMS - PART 1

Some spray application problems in tropical crops
N. G. MORGAN ...................................................... 771

Problems on the use of insecticides in the tropics
K. HOCKING and C. POTTER .................................... 780

The introduction of cotton insect control in Malawi
J. P. TUNSTALL, G. A. MATHEWS and D. J. MCKINLEY ........ 785

Session 8A
FACTORS AFFECTING PERFORMANCE OF 'SYSTEMIC' FUNGICIDES

Systemic fungicides: new solutions and new problems
PROFESSOR DR. G. J. M. VAN DER KERK ......................... 791

Session 8B
PEST AND DISEASE CONTROL IN FORESTRY

Disease and pest control in British forests: an outline
D. H. PHILLIPS .................................................... 803

Testing insecticides against the pine weevil (Hylobius abietis)
E. CHRISTIANSEN, A. BAKKE and T. SAETHER ..................... 808

Session 8C
"Negative" effects of fungicides on coffee
ELLIS GRIFFITHS ................................................ 817

The effects of cocoa capsids on growth and yield in Ghana
C. A. COLLINGWOOD ............................................. 826

Pest and disease problems in the Seychelles
P. L. MATHIAS .................................................... 835
