

# Bird Problems in Agriculture

The Proceedings of a Conference  
"Understanding Agricultural Bird Problems"  
held at Royal Holloway College, University of London  
April 4th-5th 1979

Edited by  
E. N. WRIGHT, B.Sc., F.I.Biol.

assisted by  
I. R. INGLIS, Ph.D. and C. J. FEARE, Ph.D.

BCPC Publications  
144-150 London Road, Croydon CR0 2TD

# Contents

## PREFACE

### Part 1 GENERAL CONSIDERATIONS

Chairman's Introduction	E. N. Wright	1
How many wild birds should farmland support?	N. W. Moore	2
Biological factors affecting control strategy	J. J. M. Flegg	7
Waterfowl crop damage prevention and compensation programs in the Canadian Prairie Provinces	H. Boyd	20
Bird damage and the law	A. W. Colling	28
Discussion		34

### Part 2 STARLINGS AS AGRICULTURAL PESTS

Chairman's Introduction	G. M. Dunnet	37
The economics of starling damage	C. J. Feare	39
Attempts to control starlings at roosts using explosives	J. Tahon	56
Breeding strategies of the starling	R. F. Verheyen	69
The starling as a successful forager	J. M. Tinbergen and R. H. Drent	83
Discussion		98

### Part 3 BIRD SCARING

Chairman's Introduction	J. R. Krebs	103
Bird behaviour and scaring by sounds	P. J. B. Slater	105
Prospects for making acoustic super-stimuli	J-C. Brémond	115
Visual bird scarers: an ethological approach	I. R. Inglis	121
The role of refuges in wildfowl management	M. Owen	144
Discussion		157

### Part 4 CHEMICAL BIRD REPELLENTS

Chairman's Introduction	P. T. Haskell	163
Chemical repellents - a review	E. N. Wright	164
Conditioned taste aversion: its role in bird damage control	J. G. Rogers, Jr.	173
Food selection by skylarks: the effect of a pesticide on grazing preferences	R. Green	180
Plant secondary compounds as a chemical defence	L. E. Fellows	188
Discussion		196
