

PESTICIDE MOVEMENT TO WATER

BCPC Monograph No 62

Proceedings of a symposium organised by
The British Crop Protection Council in
conjunction with the Society of Chemical Industry,
the Association of Applied Biologists,
the European Weed Research Society
and SETAC Europe.

Held at the University of Warwick,
Coventry, UK on 3-5 April 1995

Edited by A Walker, R Allen, S W Bailey, A M Blair,
C D Brown, P Günther, C R Leake and P H Nicholls

BCPC Registered Office:
49 Downing Street
Farnham
Surrey GU9 7PH, UK.

	Page
Preface	X
Symposium Organising Committee	XI
Chairmen of Sessions	XII
Acknowledgement	XII
Exhibitors	XIII
Abbreviations	XIV

SESSION 1 PROCESSES

	Page
The movement of water and solutes to surface and groundwaters P B LEEDS-HARRISON	3
Studies of time-dependent sorption processes in soils A WALKER, S J WELCH and I J TURNER	13
The relative importance of adsorption and desorption constants to the assessment of pesticide leaching potential in soil C R LEAKE and E W GATZWEILER	19
Sorption and desorption of tefluthrin insecticide by soil under simulated rainfall runoff conditions J L ZHOU, S J ROWLAND, R F C MANTOURA and M C G LANE	25
The use of mini-lysimeters to study the influence of rainfall intensity on pesticide transport and water pathways A C JOHNSON	33
Application of a novel high-resolution tomographic method for non-destructive characterisation of pore structure in soil cores G REINKEN, F FÜHR, N ZADGORSKY, H HALLING and O SCHULT	39
The use of immobilised antibody fragments to detect and remove organic pollutants in the environment D LEARMONTH, B M GRAHAM, F R BYRNE, S D GRANT, A J PORTER and W J HARRIS	45
Influence of crop residues on degradation, formation of bound residues and transport of methabenzthiazuron in soil H PRINTZ, P BURAUDEL and F FÜHR	53
Simulation of herbicide persistence in soil during autumn and winter M HEIERMANN, W PESTEMER, B GOTTESBÜREN and W MEYER	59
Factors controlling the degradation of 2,4-D from topsoil to subsoil K J LEWIS, J S DYSON and F J LEWIS	65

SESSION 2: FIELD AND LYSIMETER STUDIES

A critical evaluation of field monitoring techniques used to describe the leaching and run-off behaviour of pesticides A D CARTER and P FOGG	71
--	----

Monitoring of pesticides in subsurface and surface water within an agricultural catchment in southern Sweden J KREUGER	81
An assessment of the behaviour of selected pesticides at ADAS Rosemaund A TURNBULL, R HARRISON, A Di GUARDO, D MACKAY and D CALAMARI	87
Effects of preferential flow upon the movement of pesticides and a conservative tracer from a heavy clay soil C D BROWN, D A ROSE, J K SYERS and R A HODGKINSON	93
Herbicide transport in differently structured soil horizons under constant and transient flow conditions S MEYER-WINDEL and B LENNARTZ	99
Isoproturon and anion transport by preferential flow through a drained clay soil A C JOHNSON, A H HARIA, V L CRUXTON, C H BATCHELOR, R J WILLIAMS, K HEPPELL and T BURT	105
The occurrence of herbicides in and the modelling of their transport to the chalk aquifer beneath arable land in southern England P J CHILTON, M E STUART, D C GOODDY, R J WILLIAMS and A R WILLIAMSON	111
A systematic approach to the characterisation of lysimeter leachate A S TERRY, E A MACKENZIE, S A FLINT and R ALLEN.....	117
Cell lysimeter for studying solute movement as influenced by soil heterogeneity G TRAPP, S MEYER-WINDEL and B LENNARTZ	123
A study of suspended and colloidal matter in the leachate from lysimeters: Implications for pollution and lysimeter studies F WORRALL, A PARKER, J E RAE and A C JOHNSON	129
 SESSION 3: MODELLING	
Experimentation and modeling D A LASKOWSKI, A S MCGIBBON, P L HAVENS and S A CRYER	137
Statistical simulation of water and pesticide movement in the unsaturated zone H VOLLMAYR.....	141
The fate and mobility of pesticides at laboratory, lysimeter and field scale: A European project H VERECKEN, U DÖRING, D J KIM, J FEYEN, C MOUVET, C MOREAU, P BURAUDEL and K HÜCKER	147
Comparison of different models to simulate the leaching behaviour of quinmerac predictively B GOTTESBÜREN, W MITTELSTAEDT and F FÜHR.....	155
Validation of the dual-porosity model "MACRO" for assessing pesticide fate and mobility in soils N J JARVIS, M LARSSON, P FOGG and A D CARTER.....	161

Multi-region water flow and chemical transport in heterogeneous soils: Theory and applications J L HUTSON and R J WAGENET	171
Mechanistic modelling of pesticide leaching from cracking clay soils A C ARMSTRONG, A M PORTWOOD, G L HARRIS, J A CATT, K R HOWSE, P B LEEDS-HARRISON and D J MASON	181
Use of the Pesticide Leaching Model (PLM) to simulate pesticide movement through macroporous soils P H NICHOLLS and D G M HALL.....	187

**SESSION 4:
POSTER PRESENTATIONS**

Processes

Factors influencing the modelling of pesticide degradation in soil and the estimation of half-life (DT^{50}) and DT^{90} values C R LEAKE, S P HUMPHREYS and D J AUSTIN	195
Spectroscopic demasking of soil organic matter bound anilazine by ^{13}C NMR techniques A WAIS, E G WITTE, A A De GRAAF, W MITTELSTAEDT, K HAIDER, P BURAUDEL and F FÜHR.....	201
Microcosm experiments to study mecoprop degradation in the chalk aquifer of Hampshire C D HUGHES, S J GARDNER, P COOMBS and P J CHILTON	207

Field and Lysimeter Studies

The fate of [benzene- $U-^{14}C$]benazolin-ethyl in a lysimeter study supported by detailed laboratory experiments and model calculations P BURAUDEL, K HÜCKER, M DUST, G REINKEN and F FÜHR.....	211
Leaching of herbicides in soil macropores as a possible reason for groundwater contamination D ADERHOLD and H NORDMEYER	217
The mobility of triclopyr under laboratory and field conditions G L REEVES	223
Assessment of the behaviour of the herbicide bentazone in soil R HUBER and S OTTO.....	229
Outdoor lysimeter studies on ^{14}C -bentazone - results from different climatic sites R BECKER-ARNOLD, R T HAMM and J HASSINK.....	237
Evaluation of herbicide mobility in soil using field lysimeters in the Mediterranean area E CAPRI, M TREVISAN, R BOCCELLI, R FRANCAVIGLIA and R MORETTI	245
Study of atrazine and terbuthylazine movement in soil water by the means of the suction cup method F RIESS, J LEPSCHY, R HOFMANN, R SCHEWES and F X MAIDL.....	251

Variability in lysimeter results R G PARSONS, R J WICKS, E W GATZWEILER and R L JONES.....	257
The occurrence of pesticides in drinking water S L WHITE and D C PINKSTONE.....	263

Modelling

Evaluation of pesticide leaching models with three Italian data-sets M TREVISAN, E CAPRI, A A M DEL RE, C VISCHETTI, M MARINI, M BUSINELLI, L DONNARUMMA, E CONTE and G IMBROGLINI	269
Results of a lysimeter study with methabenzthiazuron compared to results obtained by the simulation models PELMO and WAVE H PRINTZ, M DUST and H VEREECKEN	275
Limits and possibilities of using computer models to predict fate and behaviour of pesticides in soil U BORCHERS, B PETERS and H OVERATH	281
The fate of isoproturon and diflufenican in an agricultural sandy loam soil under laboratory and field conditions including simulation modelling D S MAIN, R C KIRKWOOD, G GETTINBY and C A SMITH	287
Statistical simulation of water and pesticide movement in the unsaturated zone H VOLLMAYR.....	295
Mathematical modelling of pesticide transport from farmland with storm water V Z KOLPAK and V V KOUZNETSOV	297

Management Practices

Influence of agricultural management and pesticide sorption on losses to surface waters G L HARRIS, R L JONES, J A CATT, D J MASON and D J ARNOLD	305
A stewardship programme on diuron aimed at protecting UK water quality A B DAVIES, R JOICE, J A BANKS and R L JONES	311
Clay-based controlled release formulation as a tool for minimising pesticide leaching M FROST, A FRIEMANN and B SCHUBERT	317
Polymeric systems for reduction of leaching of herbicides K S NARAYANAN, R M IANNIELLO, F R HALL and T M WOLF	323
A field experiment to compare the movement of diuron from wetable powder and controlled release formulations in a Brazilian soil M PECK, J V COTERILL, F BLANCO, R M WILKINS, F T DA SILVAY, A COTRIM and A FERRAZ	327

SESSION 5:

RISK ASSESSMENT AND REGULATORY IMPLICATIONS

Assessment, acceptability and regulation of risk from residues in water D RILEY	335
--	-----

Using CatchIS to assess the risk to water resources from diffusely applied pesticides J M HOLLIS, C A KEAY, S H HALLET, J W GIBBONS and A C COURT	345
Use of a Pesticide Monitoring System (PEMOSYS) for the risk assessment of pesticide leaching potential - concept for post registration activities W PESTEMER and P GÜNTHER.....	351
Simulation modelling and UK regulatory decision-making: Perfect partners or warring factions? T D JARVIS	357
Pesticide selection for monitoring private water supplies S W BAILEY, J ALLSOPP and B MARTIN	363

**SESSION 6:
MANAGEMENT PRACTICES**

Pesticide loss to water - a review of possible agricultural management opportunities to minimise pesticide movement G L HARRIS.....	371
Pesticides in drinking water - catchment protection or water treatment? A C COURT, R A BREACH and M J PORTER	381
Good farming practices to reduce residues of atrazine in ground and surface water A SEILER and F MÜHLEBACH.....	389
Grassed buffer strips to reduce herbicide concentration in runoff - preliminary study in western France L PATTY, J J GRIL & B REAL and C GUYOT	397
Management practices to reduce pesticide movement to water C J DRUMMOND and R LAWTON	407
