

10th International Congress of Plant Protection 1983

VOLUME 1

Proceedings of a Conference
held at Brighton, England
20-25 November, 1983

Plant Protection for Human Welfare

Contents

	Page No.
Foreword	ix
Preface	x
Committee for the International Plant Protection Congresses	xi
10th ICPP Congress Officers	xv
Notes for Readers	xvi
Abbreviations	xviii
Acknowledgements	xix
Scientific Programme	
PLENARY PAPERS	Volume I
	Page No.
1. Plant Protection for Global Food Security	
DR. M. S. SWAMINATHAN; F.R.S.	3
2. Global Trends Affecting Plant Protection	
Trends in the World Economy	
MR. W. A. JOHNSON	15
Future Developments in World Agriculture	
PROF. C. R. W. SPEDDING	20
3. International Aspects of Crop Protection	
International Challenges to the Agrochemical Industry	
DR. A. HAYES	29
The Needs of Tropical Developing Countries	
DR. T. R. ODHAIAMBO	34
Transnational Crop Protection Projects	
PROF. R. F. SMITH and DR. D. G. BOTTRELL	35
4. The Future	
The Future Potential of Crop Protection Research	
DR. J. MIYAMOTO	45
Reflections on Risk and Regulatory Policy	
DR. C. F. WILKINSON	46
Farming—Partly an Art and Partly a Science	
MR. P. R. SMITH	56

1. The Incidence and Effects of Pests, Diseases and Weeds

TOPIC 1A. Effects of Pests, Diseases and Weeds on Yield and Quality

Symposium Papers	1A-S1 to 1A-S4	65-97
Research Reports	1A-R1 to 1A-R	99-127

TOPIC 1B. Forecasting the Need to Control Pests, Diseases and Weeds in Crops

Symposium Papers	1B-S1 to S4	131-159
Research Reports	1B-R1 to R35	161-195

2. Discovery and Properties of Conventional and Novel Chemical Control Agents

TOPIC 2A. The discovery of Crop Protection Chemicals

Symposium Papers	2A-S1 to S4	201-223
Research Reports	2A-R1 to R10	225-234

TOPIC 2B. Non-Conventional Chemical Agents

Symposium Papers	2B-S1 to S3	237-264
Research Reports	2B-R1 to R25	265-292

TOPIC 2C. New Compounds Formulations and Uses

Research Papers	2C-S1 to S22	295-463
-----------------	-----	-----	-----	--------------	---------

Volume II

3. Factors affecting the performance of pesticides in practice

TOPIC 3A. Application Methods

Symposium Papers	3A-S1 to S3	468-495
Research Reports	3A-R1 to R39	497-534

TOPIC 3B. Influence of formulation and environmental factors on performance

Symposium Papers	3B-S1 to S3	537-559
Research Reports	3B-R1 to R28	561-588

TOPIC 3C. Resistance to Pesticides

Symposium Papers	3C-S1 to S4	590-622
Research Reports	3C-R1 to R25	625-650

4. Environmental and Safety Aspects of Pesticide Use

TOPIC 4A. Pesticides and Human Safety

Symposium Papers	4B-S1 to S3	654-669
Research Reports	4A-R1 to R12	671-682

TOPIC 4B. Environmental and Ecological Aspects of Pesticide Use

Symposium Papers	4B-S1 to S3	685-709
Research Reports	4B-R1 to R28	711-738

5. Non-chemical Methods of Crop Protection

TOPIC 5A. Biotic Agents

Symposium Papers	5A-S1 to S4	743-771
Research Reports	5A-R1 to R27	773-799

TOPIC 5B. Plant Breeding Strategies for Crop Protection

Symposium Papers	5B-S1 to S3	803-827
Research Reports	5B-R1 to R20	829-848

TOPIC 5C. Quarantine, Eradication and Legislation

Symposium Papers	5C-S1 to S4	851-873
Research Reports	5C-R1 to R9	875-887

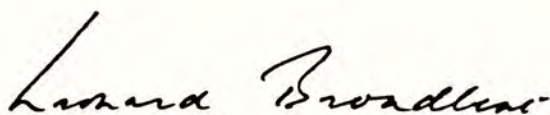

Contents (Cont.)	Volume III	Page No.
6. Pest, Disease and Weed management in Integrated Crop Production		
TOPIC 6a. Field Crops		
	Symposium Papers 6A-S1 to S4	889-921
	Research Reports 6A-R1 to R38	923-962
TOPIC 6B. Perennial Plantation Crops		
	Symposium Papers 6B-S1 to S4	965-998
	Research Reports 6B-R1 to R33	999-1031
TOPIC 6C. Forestry		
	Symposium Papers 6C-S1 to S4	1035-1066
	Research Reports 6C-R1 to R9	1067-1075
TOPIC 6D. Protected Crops		
	Symposium Papers 6D-S1 to S4	1077-1104
	Research Reports 6D-R1 to R17	1105-1121
TOPIC 6E. Amenity and Aquatic Areas		
	Symposium Papers 6D-S1 to S3	1125-1145
	Research Reports 6D-R1 to R8	1147-1154
TOPIC 6F. Vegetable and Root Crops		
	Symposium Papers 6F-S1 to S3	1157-1182
	Research Reports 6F-R1 to R35	1183-1218
<i>AUTHOR INDEX TO Code Numbers</i>		1219

Foreword

The 10th International Congress could not have taken place without considerable voluntary hard work by very many scientists, technologists and others from a wide range of governmental, industrial and commercial bodies throughout the world, whether they were concerned with organizing the Congress, preparing papers or attending and taking part in the discussions. My thanks to everyone who helped to make the Congress a success.

These Proceedings will ensure that a much larger scientific and student audience than was able to attend at Brighton will be able to benefit from studying the current state of plant protection. I am sure readers will agree that the theme 'plant protection for human welfare' is amply explored in the wide range of papers here presented.

Crop protectionists have a very important role to play in helping to maintain food supplies, leisure and sports areas, and ornamental and fibre plants with minimal damage to wildlife and our whole environment. Let us hope that other humans will soon learn to take as responsible an attitude towards their own welfare and that of other organisms.

A handwritten signature in black ink, reading "Leonard Broadbent". The signature is written in a cursive style with a large initial 'L'.

PROFESSOR LEONARD BROADBENT, *Congress President*

PLENARY PAPERS

- PLANT PROTECTION FOR GLOBAL FOOD
SECURITY 1P-1
Chairman. Professor L. Broadbent
- GLOBAL TRENDS AFFECTING PLANT
PROTECTION 2P-1 and 2
Chairman. Dr. J. G. Horsfall
- INTERNATIONAL ASPECTS OF CROP
PROTECTION 3P-1 to 3
Chairman. Dr. P. T. Haskell
- THE FUTURE 4P-1 and 2
Chairman. Sir James Scott-Hopkins
